

# How To Get Proof Of Social Security Numbers Or Benefits

To efficiently meet the needs of the public, we need to make changes in how we provide some services to our customers. Effective August 1, 2014, we will stop providing Social Security number (SSN) printouts. Also, in January 2013, we made benefit verifications available online. The public can get an instant letter online with a personal **my Social Security** account, or they may continue to call us toll-free to request a letter by mail. Our local offices will continue to do all that they can to assist members of the community. Since we now offer more convenient services, we are asking agencies and other organizations to use our specially developed online methods to obtain this information and assist our mutual customers in adjusting to this change.

## Utilize Data Exchanges

Social Security has collaborated with federal, state and local agencies to build hundreds of robust data exchanges during the past few years. We currently provide more than 1.6 billion electronic verifications of Social Security numbers or benefit information to employers, state and local agencies, and other authorized third parties. Agencies and organizations should use available data exchanges to get the necessary verifications. For more information about our data exchanges, please visit us at [www.socialsecurity.gov/dataexchange](http://www.socialsecurity.gov/dataexchange).

In addition, employers, departments of motor vehicles and other entities can obtain Social Security number verification in real time or overnight using online government services such as E-Verify ([www.uscis.gov/e-verify](http://www.uscis.gov/e-verify)) and Social Security's Business Services Online ([www.socialsecurity.gov/bsowelcome.htm](http://www.socialsecurity.gov/bsowelcome.htm)).

## How to get proof of a Social Security Number

Because Social Security number printouts are not official documents with security features

and are easily misused or counterfeited, eliminating printouts will help prevent identity theft. A Social Security card is legal proof of a Social Security number. If your agency or organization requires proof and the person cannot produce a card, that person will need a replacement card. To get a replacement card, a requestor must complete an *Application for a Social Security Card* (Form SS-5), available at [www.socialsecurity.gov/ssnumber](http://www.socialsecurity.gov/ssnumber). The requestor also must provide original documents proving identity, age and citizenship or work-authorized immigration status.

## Encourage Clients to Use my Social Security

If your agency or organization does not have a data exchange with Social Security, please encourage your clients to create a **my Social Security** account at [www.socialsecurity.gov/myaccount](http://www.socialsecurity.gov/myaccount). There, people can get a benefit verification letter online instantly. With a **my Social Security** account, members of the public can also conduct other business with us, such as review earnings records and estimate retirement, disability, and survivors benefits.
